GUIDE TO SYMBOLS

EN 60.598 Class 1 – fittings comply with class 1 (I) earthed electrical requirements i.e. functional insulation in all parts and earth termination.

 Class 2 – fittings comply with class 2 (II) double insulated electrical requirements i.e. complete insulation in all parts without earth termination. In the event of an electrical fault, no dangerous voltage can reach touchable metal parts.

 Suitable for mounting in or on furniture made of semi-combustible or normally combustible materials such as wood.

 Passes the 650° glow wire test in accordance with IEC 695-2-1.

 Horizontal rotation

 Electronic transformer

 HID lamp requires an external ignitor

 Ceiling cut-out – round

 Trailing edge dimmable (capacitive)

 Ingress protection

 European Norms Electrical Certification

 Suitable for Healthcare applications

 Suitable for Retail and Display applications

 Treat lamp as small chemical waste

 Allowed lamp operating positions

 Class 3 – fittings comply with class 3 (III) triple insulated electrical requirements i.e. designed to connect to an external low voltage supply which is the same as the internal operating voltage requirement. In the event of an electrical fault, no dangerous voltage can develop. Inflammability of surface protection EN 60.598

 Fittings made for mounting in or on furniture made of materials of unknown properties.

 Safety isolating transformer

 Vertical tilt

 Electronic ballast/gear

 Minimum distance in metres permitted from lighted object

 Ceiling cut-out – square

 Leading edge dimmable (inductive)

 Impact protection

 Suitable for Office applications

 Suitable for Education applications

 Suitable for Exterior applications

 Open packaging and read instructions

 Universal burning position

 Vertical burning position

 Lamp can be operated in luminaires without a protective shield

 Lamp emits a high level of UV radiation

 Cool beam reflector

 Protection against water contact

 External ignitor

 Lamp should not be operated when the outer bulb is broken

 Do not hold the lamp glass when installing or removing

 Do not touch lamp with bare fingers when replacing lamp

 Read instructions before use

 Lamp complies with legal standards

 Bowl Mirror lamps

 RoHS compliant

 Warranty logo, please refer to intro pages for full details

 RAL reference

 Horizontal burning position

 Incandescent Candle and Ball: Base up not allowed

 Lamp should be operated only in a luminaire provided with a protective shield

 Reduced UV emissions

 Not dimmable

 Internal ignitor

 Ballast is required

 Be aware of high temperatures when replacing lamp

 Switch off power supply before replacing lamp

 Energy saving

 Lamp complies with legal standards

 grüne Punkt

 Luminaire can be looped

 WEEE WEE compliant

 Ball resistant luminaire
